Uptown Multi-Modal Station Area Market Analysis

Prepared for: CATS/CMPC

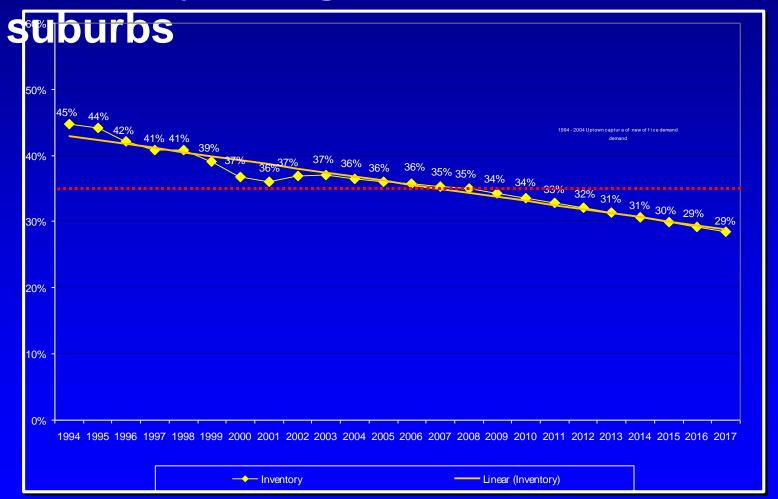

October 26, 2004

Objectives

- RCLCo engaged by CATS/CMPC to:
 - Examine short and long-term trends occurring in Uptown-area office and residential market;
 - Apply trends and opportunities to sites proximate to planned MMS station;
 - Macro trends based on Thomas Hammer long-term projections for county
 - Create two scenarios:
 - Park on County land
 - Baseball stadium on County land.

Uptown Office Market Trend

Gradually losing market share to

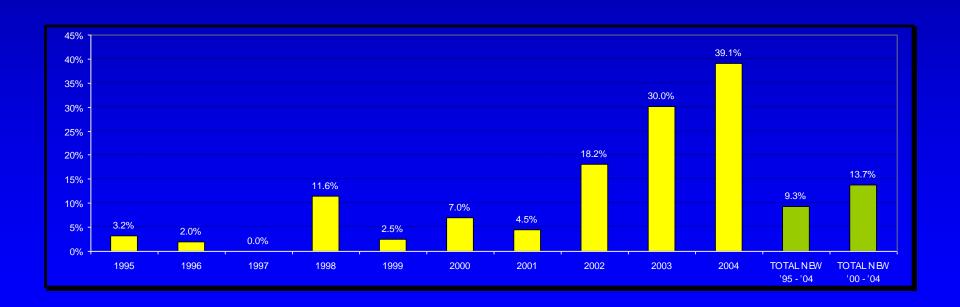

Two Office Scenarios

- Created two scenarios:
 - Continued loss of market share
 - Maintain market share w/ rail, residential & suburban controls

	Annual Meck. Co. Office Space Demand	Maintaining Capture	Trend Line - assuming loss of market share	Most Likely Scenario
2006 - 2010				
Annual Space Demand	1,051,033	371,015	369,964	371,015
Uptown Capture		35.3%	35.2%	35.3%
2010 - 2015				
Annual Space Demand	1,094,203	386,254	349,051	367,652
Uptown Capture		35.3%	31.9%	34%
2015 - 2020				
Annual Space Demand	1,282,526	452,732	369,367	411,050
Uptown Capture		35.3%	28.8%	32%
2020 - 2025				
Annual Space Demand	1,581,384	558,229	412,741	485,485
Uptown Capture		35.3%	26.1%	31%
2025 - 2030				
Annual Space Demand	1,488,388	525,401	351,260	438,330
Uptown Capture	1, 100,000	35.3%	23.6%	29%

Residential Trends

- Uptown residential market strong
 - Temporarily overstated due to weak suburban apt. market

Residential Demand Potential

- Created Base Case of 13.7% capture
 - Represents baseball stadium scenario
- Park Scenario with stronger capture
